

# TEGLA<sup>®</sup> CLASSIC ZWEIPLUS

With fine structured surfaces for architecture

# TEGLA® CLASSIC ZWEIPLUS

## Advantages at a Glance

- Low reflection
- Absolute color neutrality
- Extremely durable and scratch resistant surface
- Simple and easy cleaning

## Specifications

- Premium float glass
- Single side fine structuring (corresponds to the «Reflo» etching)
- Cut edges, washed and interleaved with paper

## Technical Data

Standard size	2.000 x 1.200 mm
Gloss value	42 (±15) — european gloss value measured by 20°
Haze value	6 (±1) — large-angle scattering (turbidity)
Clarity value	60 (±5) — small-angle scattering (image sharpness)

## Packaging, transport and storage

Glass thickness	Box content	Weight
3 mm (+0,2/-0,3)	20 pieces	approx. 360 kg
4 mm (+0,2/-0,3)	18 pieces	approx. 430 kg
6 mm (+0,2/-0,3)	12 pieces	approx. 430 kg

- Standard sizes available at short notice
- Special sizes or packaging on request

TEGLA® Classic ZweiPlus is supplied in transport-safe wooden boxes with acid-free paper liners. In order to avoid humidity between the glass panels, the package is wrapped in plastic foil with a desiccant. After opening the foil, storage under low humidity is required.

## Handling

TEGLA® Classic ZweiPlus is easy to handle.

## Cleaning Recommendation

Cleaning is done with commercial glass cleaners.

Caution: Do not use cleaners containing fluorides or hydroxides.
